Projects: MTA ADA Package 6 contract (*Feb 2026 - Present*)
Gateway Tunnel Project - Tonnelle Ave Overhead Bridge and Utilities relocation (*June 2024 - Feb 2026*)

- Managed construction documentation, including submittals, RFIs, change orders, and correspondence, ensuring timely processing.
- Supported the Resident Engineer and Engineer-in-Charge in daily project oversight, coordinating between office, field teams, and contractors to ensure quality audits. Assisted with scheduling inspections, tracking deficiencies, and following up on outstanding items
- Maintained and distributed safety inspection reports and progress photo documentation for recordkeeping and compliance.
- Reviewed monthly payment applications and verified supporting documentation for accuracy. Prepared monthly and quarterly progress reports in accordance with client requirements.
- Supported change order and field order processing in accordance with project procedures.
- Performed administrative tasks including meeting agendas and minutes, tracking project deficiencies, project file audits, scheduling meetings, supply requests, personnel documentation, and other ad-hoc tasks.
- Managed and supported the team in maintaining document control workflows and project tracking using Kahua, SharePoint, and Unifier, ensuring accurate documentation control, efficient coordination, and timely project reporting across all project phases

Stone Engineering & Architecture DPC New York, NY
Project Associate Jan 2024 - May 2024

- Conducted FISP, PIPS, and site inspections to document existing building conditions in compliance with codes and regulations.
- Prepared construction documents, specifications, project manuals, and 2D/3D drawings for preservation and restoration projects.
- Developed project reports and coordinated with clients and expeditors to support NYC DOB approvals and permit applications.
- Assisted with field coordination, inspections, and project documentation to maintain accurate and compliant records.

Vision Construction Bx Inc. Bronx, NY
Intern - Assistant Project Manager Oct 2023 - Dec 2024

- Conducted site visits to evaluate existing conditions and identify repair and renovation requirements for residential projects.
- Developed renovation drawings and proposed alterations based on field observations for client review and approval submissions.
- Participated in milestone inspections and prepared progress reports to monitor the status of apartment alteration projects.
- Assisted with payment applications and coordinated with clients, consultants, and contractors to support project tracking and approval.

Unified Workplace Architecture Pune, India
Assistant Design Engineer Aug 2020 – Sept 2021

- Developed detailed design drawings for sustainable commercial expansion projects, including HarperCollins and Coherence Inc.
- Supported the Design Manager throughout all project phases, from concept development to final design delivery. Assisted with client presentations, market research, and scope and budget analysis to help guide project planning and decision-making.
- Conducted site studies, inspections, and client coordination to ensure designs met project requirements, site conditions, and design objectives. Collaborated with multidisciplinary teams to support project delivery, documentation, and design coordination.
- Assisted in material selection, space planning, and design development to enhance project functionality and sustainability goals.
